

You're Invited

2020 SOUTHERN EDUCATIONAL ROBOTICS CONFERENCE

Auburn University
December 7-8, 2020

As educational robotics sweeps across the country, teachers are looking for professional development and resources to help them master robotics or just be more effective as they learn alongside their students. Join us for this two-day power packed robotics education conference and learn from the experts how to maximize your efforts, be a more efficient coach for your robotics teams, and incorporate robotics into your daily lesson plans. The conference will cover topics related to multiple robotics platforms, including (but not limited to): BEST Robotics, VEX IQ, VRC, VEX-U, RAD Drones, SeaPerch, Ozobots, Dash and Dot, Cue, Raspberry Pi, Micro:bit, Tynker, and more. Sessions will target classroom and competitive robotics ranging from elementary through college. Register today at www.aub.ie/2020conference. Registration fee is \$125 for one-day attendance and \$160 to attend both days. College and K-12 student leaders may attend the conference at a reduced fee of \$30 per day (\$60 to attend both days). Participant safety is our priority and appropriate practices will be implemented to ensure a safe experience for all attendees.

GENERAL CONFERENCE SCHEDULE (BOTH DAYS):

| | |
|--------------|--------------------------------------|
| 8:30 – 11:30 | Hands-on workshops and presentations |
| 11:45-1:00 | Lunch |
| 1:15 – 3:30 | Hands-on workshops and presentations |

ON-LINE REGISTRATION IS CURRENTLY OPEN

WITH TOPICS LIKE:

- STEM Labs
- Grants and Funding Robotics Programs
- Growing Diversity in Robotics at Your School
- Coding in the Classroom
- Logistics of hosting your own robotics tournament
- Hosting summer robotics camps
- Creating an effective engineering notebook
- Assessing robotics
- ...And Many More!
